

Assignment 2 - part 2

a)[3 marks] one aspect of the visualisation that is a problem with respect to either the *gulf of execution* or the *gulf of evaluation*

One aspect problem in gulf of execution is the film genre (Selection rule) that are taken into consideration only the genre where male domination is taken into consideration. Female centric films are not considered. Female character driven movies like rom-com, fairy tales etc., could also be evaluated. If gender dominance is proved by including female centric movies it will be strong evidence.

b) [3 marks] one aspect of the visualisation that is a positive benefit with respect to either the *gulf of execution* or the *gulf of evaluation*

One positive aspect of gulf of evaluation is small. The expectation and intensions of user is neatly interpreted and perceived like in the last part of displaying number of words by the character in the specific movie different option are provided for used interpretation satisfaction.
